

CRYSTAL COMMAND - SPRITE GENERATION BRIEF

for Gemini image generation

Crystal Command style guide · p.1

This document specifies every sprite for the game Crystal Command: colors, signature details, and ready-to-paste prompts. Each character page is self-contained.

WORKFLOW (follow for every character)

1. Generate colorway A with PROMPT 1. Always attach the approved marine sprite as a style reference so every character matches.
2. Check the SIGNATURE DETAIL survived. If a color zone is wrong, reply with a one-line correction (e.g. "make the shoulder trim charcoal #3A3F45").
3. Upload the colorway-A image with PROMPT 2 to get colorway B. Never regenerate from scratch - recoloring keeps the two sprites identical.
4. Remove the background to transparent, CROP TO THE SPRITE BOUNDS (no empty margins), export 256 x 256 PNG.
5. Save with the exact filename on the sheet and drop into assets/sprites/. The game uses colorway art as-is; anything missing falls back automatically.

GLOBAL STYLE RULES

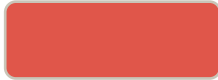

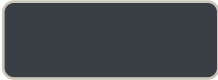

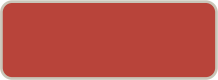

Top-down orthographic (camera straight down) - facing UP - chunky cartoon proportions - flat shading with bold dark outlines - readable at 30 pixels - kid-friendly, no gore - buildings are architecture seen from above, vehicles show their roofs, infantry show helmet and shoulders.

TEAM PALETTES

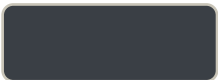

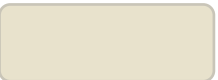

Expedition (teal) - the player: clean survey-fleet science gear.

				
Hull #3FB9C9 vehicles, armor	Trim #E8E4D8 panels, pads	Accent #F0C86A lights, visors	Structure #2F97A6 buildings	FX #9FE8EF glow

Rubicon Mining (red) - the rival: heavy industrial mining conglomerate.

				
Hull #E0564A vehicles, armor	Trim #3A3F45 iron panels	Accent #F2B63D hazard yellow	Structure #B8443A buildings	FX #F5A89A glow

Universal colors (identical on every team):

					
Hazard #F2B63D stripes, chevrons	Gunmetal #3A3F45 weapons	Steel #9AA0A6 machinery	Bone #E8E2CC cages, eggs	Venom #A8D060 dino biology	Crystal #6FE3D0 the resource

Wild dinos use their own sheet (bone hide, moss stripes) - they are wildlife, not a faction.

CHARACTER SHEET

Unit

Crystal Command style guide · p.2

MARINE

Infantry · fast, cheap rifleman - the workhorse of both armies

SUBJECT

A single sci-fi marine rifleman seen from directly above, helmet at the top, rifle held ready pointing up. This is the **STYLE ANCHOR** - every other sprite must match it.

SIGNATURE DETAIL (must survive at 30 px):

one glowing visor strip across the helmet - the accent color, and nothing else, on the head

COLORWAY A - EXPEDITION (save as unit_marine_tea.png)

Hull · 75%
#3FB9C9
armor, helmet

Trim · 20%
#E8E4D8
pads, backpack

Accent · 5%
#F0C86A
visor strip

Gunmetal
#3A3F45
rifle, boots

COLORWAY B - RUBICON (save as unit_marine_red.png)

Hull · 75%
#E0564A
armor, helmet

Trim · 20%
#3A3F45
pads, backpack

Accent · 5%
#F2B63D
visor strip

Gunmetal
#2C3036
rifle, boots

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a single sci-fi marine soldier with a rifle held pointing up, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Teal armor #3FB9C9 covering about 75% of the body, off-white trim panels #E8E4D8 on the shoulder pads and backpack, one small glowing amber visor strip #F0C86A across the helmet, dark gunmetal rifle #3A3F45. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: armor becomes red #E0564A, shoulder trim becomes charcoal #3A3F45, the visor strip becomes hazard yellow #F2B63D, rifle stays dark gunmetal. Keep the pose, proportions, outline, and every detail identical - change colors only.

CHARACTER SHEET

Unit

Crystal Command style guide · p.3

SNIPER

Infantry · fragile marksman with the longest sight in the game

SUBJECT

A sniper lying PRONE (flat on the ground), long rifle with bipod extending up past the body. The silhouette should read long and thin next to the chunky marine.

SIGNATURE DETAIL (must survive at 30 px):

a tiny glowing scope lens on the rifle - the only bright pixel on a deliberately drab sprite

COLORWAY A - EXPEDITION (save as unit_sniper_teal.png)

Cloak · 80%
#2F97A6
body, hood

Gunmetal
#3A3F45
long rifle

Accent
#F0C86A
scope lens

Drab
#5A6157
boots, wrap

COLORWAY B - RUBICON (save as unit_sniper_red.png)

Cloak · 80%
#B8443A
body, hood

Gunmetal
#3A3F45
long rifle

Accent
#F2B63D
scope lens

Drab
#5A6157
boots, wrap

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a single prone sniper lying flat with a very long anti-materiel rifle pointing up, low wide silhouette, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Dark desaturated teal cloak #2F97A6 over the whole body, dark gunmetal rifle #3A3F45 with a tiny glowing amber scope lens #F0C86A, moss-drab boots #5A6157. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: the cloak becomes dark rust red #B8443A, the scope lens becomes hazard yellow #F2B63D, everything else stays. Keep the pose, proportions, outline, and every detail identical - change colors only.

NOTE: Also save a copy of each as unit_sniper_hunker_teal.png / _red.png - the game shows the same prone art while dug in.

CHARACTER SHEET

Unit

Crystal Command style guide · p.4

MEDIC

Infantry · unarmed field medic - heals infantry and dinos

SUBJECT

An unarmed medic with a big square medical backpack. No weapon anywhere. Softer, rounder posture than the marine.

SIGNATURE DETAIL (must survive at 30 px):

the red cross on the backpack - visible from above, dead center

COLORWAY A - EXPEDITION (save as unit_medic_teal.png)

Kit · 70%
#F2F2EE
uniform, pack

Cross
#D84A3E
backpack, helmet

Team · 20%
#3FB9C9
boots, gloves

Accent
#F0C86A
headlamp

COLORWAY B - RUBICON (save as unit_medic_red.png)

Kit · 70%
#F2F2EE
uniform, pack

Cross
#D84A3E
backpack, helmet

Team · 20%
#E0564A
boots, gloves

Accent
#F2B63D
headlamp

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a single unarmed field medic with a bulky medical backpack, both hands free, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Off-white uniform #F2F2EE over most of the body, a bold red cross #D84A3E on the backpack, teal boots and gloves #3FB9C9, amber headlamp #F0C86A. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: boots and gloves become red #E0564A; the white uniform and red cross stay exactly the same. Keep the pose, proportions, outline, and every detail identical - change colors only.

NOTE: Medical white is universal - the two colorways differ only in boots/gloves.

CHARACTER SHEET

Unit

Crystal Command style guide · p.5

ENGINEER

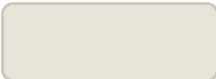

Infantry · repairs buildings and vehicles

SUBJECT

An engineer in coveralls, wrench in one hand, hard hat clearly visible from above. Reads as a worker, not a soldier.

SIGNATURE DETAIL (must survive at 30 px):
the amber hard hat - a bright disc where a soldier would have armor

COLORWAY A - EXPEDITION (save as unit_engineer_tea.png)

			
Hull · 70% #3FB9C9 coveralls	Hard hat #F0C86A the disc on top	Steel #9AA0A6 wrench, tools	Trim #E8E4D8 tool belt

COLORWAY B - RUBICON (save as unit_engineer_red.png)

			
Hull · 70% #E0564A coveralls	Hard hat #F2B63D the disc on top	Steel #9AA0A6 wrench, tools	Trim #3A3F45 tool belt

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a single engineer in work coveralls holding a big wrench, wearing a hard hat, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Teal coveralls #3FB9C9, glowing amber hard hat #F0C86A, steel wrench #9AA0A6, off-white tool belt #E8E4D8. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: coveralls become red #E0564A, the hard hat becomes hazard yellow #F2B63D, tool belt becomes charcoal #3A3F45. Keep the pose, proportions, outline, and every detail identical - change colors only.

CHARACTER SHEET

Unit

Crystal Command style guide · p.6

ROCKET TROOPER

Infantry · anti-vehicle specialist, can hit aircraft

SUBJECT

A rocket trooper: same chunky body as the marine but with a fat launch tube across the right shoulder, rocket loaded.

SIGNATURE DETAIL (must survive at 30 px):
the red rocket tip visible in the mouth of the tube

COLORWAY A - EXPEDITION (save as unit_rocket_teal.png)

Hull · 70%
#3FB9C9
armor, helmet

Tube
#3A3F45
launcher

Warhead
#E0564A
rocket tip

Trim
#E8E4D8
pads

COLORWAY B - RUBICON (save as unit_rocket_red.png)

Hull · 70%
#E0564A
armor, helmet

Tube
#3A3F45
launcher

Warhead
#E0564A
rocket tip

Trim
#3A3F45
pads

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a single soldier with a large launch tube over the right shoulder, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Teal armor #3FB9C9, charcoal launch tube #3A3F45 over the right shoulder with a red rocket tip #E0564A peeking out, off-white shoulder pads #E8E4D8. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: armor becomes red #E0564A, shoulder pads become charcoal #3A3F45; the tube and red rocket tip stay. Keep the pose, proportions, outline, and every detail identical - change colors only.

CHARACTER SHEET

Unit

Crystal Command style guide · p.7

HARVESTER

Vehicle · mines crystals and hauls them home

SUBJECT

A stubby industrial mining truck: wide hazard-striped scoop at the front, open cargo bed behind the cab. Friendly and utilitarian, not military.

SIGNATURE DETAIL (must survive at 30 px):

the hazard-striped scoop - mining equipment is striped on EVERY team

COLORWAY A - EXPEDITION (save as unit_harvester_tea.png)

Hull · 70%
#3FB9C9
body, bed

Hazard
#F2B63D
front scoop

Trim
#E8E4D8
cab roof

Tires
#2C3036
wheels

COLORWAY B - RUBICON (save as unit_harvester_red.png)

Hull · 70%
#E0564A
body, bed

Hazard
#F2B63D
front scoop

Trim
#3A3F45
cab roof

Tires
#2C3036
wheels

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a boxy mining truck with a wide front scoop and an open cargo bed, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Teal hull #3FB9C9, hazard-yellow and black striped front scoop #F2B63D, off-white cab roof #E8E4D8, dark gray tires #2C3036, empty gray cargo bed. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: hull becomes red #E0564A, cab roof becomes charcoal #3A3F45; the hazard scoop and tires stay. Keep the pose, proportions, outline, and every detail identical - change colors only.

NOTE: Leave the cargo bed EMPTY - the game draws the crystal/egg load on top.

CHARACTER SHEET

Unit

Crystal Command style guide · p.8

RAIDER

Vehicle · fast attack buggy, scout and harasser

SUBJECT

A low wedge-shaped buggy, wide rear wheels, narrow nose, small roof gun. Should look FAST standing still.

SIGNATURE DETAIL (must survive at 30 px):
the racing stripe, nose to tail

COLORWAY A - EXPEDITION (save as unit_raider_teal.png)

Hull · 70%
#3FB9C9
wedge body

Stripe
#E8E4D8
nose to tail

Accent
#F0C86A
headlights

Gunmetal
#3A3F45
roof gun

COLORWAY B - RUBICON (save as unit_raider_red.png)

Hull · 70%
#E0564A
wedge body

Stripe
#3A3F45
nose to tail

Accent
#F2B63D
headlights

Gunmetal
#3A3F45
roof gun

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a fast wedge-shaped attack buggy with a small roof-mounted gun, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Teal wedge body #3FB9C9 with one off-white racing stripe #E8E4D8 running nose to tail, amber headlights #F0C86A, dark gunmetal roof gun #3A3F45, dark wheels. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: body becomes red #E0564A, the racing stripe becomes charcoal #3A3F45, headlights become hazard yellow #F2B63D. Keep the pose, proportions, outline, and every detail identical - change colors only.

CHARACTER SHEET

Unit

Crystal Command style guide · p.9

TANK

Vehicle · slow, heavily armored main battle tank

SUBJECT

A wide, heavy main battle tank: broad tracks, round turret, one long cannon pointing straight up. The biggest, most armored-looking ground unit.

SIGNATURE DETAIL (must survive at 30 px):
one bright band ringing the cannon near the muzzle

COLORWAY A - EXPEDITION (save as unit_tank_tea.png)

Hull · 75%
#3FB9C9
hull, turret

Tracks
#2C3036
both sides

Trim
#E8E4D8
turret ring

Accent
#F0C86A
muzzle band

COLORWAY B - RUBICON (save as unit_tank_red.png)

Hull · 75%
#E0564A
hull, turret

Tracks
#2C3036
both sides

Trim
#3A3F45
turret ring

Accent
#F2B63D
muzzle band

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a heavy battle tank with a long cannon pointing up, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Teal hull and turret #3FB9C9, dark charcoal tracks #2C3036, off-white turret ring #E8E4D8, one amber band #F0C86A around the cannon near the muzzle. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: hull and turret become red #E0564A, turret ring becomes charcoal #3A3F45, the muzzle band becomes hazard yellow #F2B63D. Keep the pose, proportions, outline, and every detail identical - change colors only.

CHARACTER SHEET

Unit

Crystal Command style guide · p.10

APC

Vehicle · armored bus for four infantry

SUBJECT

A long eight-wheeled armored box with a prominent roof hatch and a rear ramp. Utility armor, not a gun platform - the tiny roof MG is barely visible.

SIGNATURE DETAIL (must survive at 30 px):

hazard chevrons on the rear ramp

COLORWAY A - EXPEDITION (save as unit_apc_tea.png)

Hull · 75%
#3FB9C9
armored box

Hatch
#E8E4D8
roof center

Hazard
#F2B63D
rear chevrons

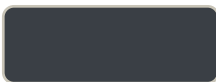

Wheels
#2C3036
8 wheels

COLORWAY B - RUBICON (save as unit_apc_red.png)

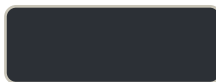

Hull · 75%
#E0564A
armored box

Hatch
#3A3F45
roof center

Hazard
#F2B63D
rear chevrons

Wheels
#2C3036
8 wheels

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of an eight-wheeled armored personnel carrier with a roof hatch, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Teal armored hull #3FB9C9, four pairs of dark wheels, off-white roof hatch #E8E4D8, hazard-yellow chevrons #F2B63D painted on the rear ramp. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: hull becomes red #E0564A, roof hatch becomes charcoal #3A3F45; the rear chevrons stay hazard yellow. Keep the pose, proportions, outline, and every detail identical - change colors only.

CHARACTER SHEET

Unit

Crystal Command style guide · p.11

ARTILLERY

Vehicle · long-range siege gun, the nest-cracker

SUBJECT

A narrow tracked carriage dwarfed by its own barrel - the cannon should be nearly as long as the chassis. Reads long and thin next to the tank.

SIGNATURE DETAIL (must survive at 30 px):

two bright bands ringing the long barrel

COLORWAY A - EXPEDITION (save as unit_artillery_tea.png)

Hull · 60%
#3FB9C9
chassis

Steel
#9AA0A6
long barrel

Accent
#F0C86A
barrel bands

Rails
#3A3F45
tracks, rails

COLORWAY B - RUBICON (save as unit_artillery_red.png)

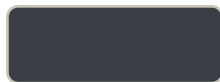

Hull · 60%
#E0564A
chassis

Steel
#9AA0A6
long barrel

Accent
#F2B63D
barrel bands

Rails
#3A3F45
tracks, rails

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a tracked siege gun with a very long barrel pointing up on a narrow chassis, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Teal narrow chassis #3FB9C9, long steel barrel #9AA0A6 with two amber bands #F0C86A along its length, charcoal tracks and recoil rails #3A3F45. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: chassis becomes red #E0564A, the barrel bands become hazard yellow #F2B63D; steel barrel and tracks stay. Keep the pose, proportions, outline, and every detail identical - change colors only.

NOTE: Also save copies as unit_artillery_hunker_tea.png / _red.png (dug-in pose: add small stabilizer legs splayed out).

CHARACTER SHEET

Unit

Crystal Command style guide · p.12

CAPTURE RIG

Vehicle · unarmed science truck that captures live dinos

SUBJECT

The harvester chassis, but the bed carries a big rounded CAGE of pale bone-white bars. Unarmed, scientific, slightly comical - a dogcatcher truck for dinosaurs.

SIGNATURE DETAIL (must survive at 30 px):

the bone-white cage with a faint green glow between the bars

COLORWAY A - EXPEDITION (save as unit_rig_tea.png)

Cab · 55%
#3FB9C9
front chassis

Cage
#E8E2CC
bed, bars

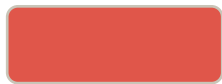

Glow
#A8D060
inside cage

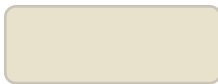

Hazard
#F2B63D
front bumper

COLORWAY B - RUBICON (save as unit_rig_red.png)

Cab · 55%
#E0564A
front chassis

Cage
#E8E2CC
bed, bars

Glow
#A8D060
inside cage

Hazard
#F2B63D
front bumper

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a mining truck chassis carrying a large cage of pale bars on its flatbed, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Teal cab #3FB9C9, bone-white cage bars #E8E2CC over the bed with a faint venom-green glow #A8D060 inside, hazard-striped front bumper #F2B63D, dark tires. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: cab becomes red #E0564A; the cage, glow, and hazard bumper stay exactly the same. Keep the pose, proportions, outline, and every detail identical - change colors only.

CHARACTER SHEET

Unit

Crystal Command style guide · p.13

GUNSHIP

Air · fast attack helicopter, terror of slow armor

SUBJECT

An attack helicopter from above: slim fuselage, two stub wings with rocket pods, thin tail boom. Keep the rotor blades THIN and semi-transparent so the body reads underneath.

SIGNATURE DETAIL (must survive at 30 px):

the amber sensor ball on the nose

COLORWAY A - EXPEDITION (save as unit_gunship_teal.png)

Hull · 70%
#3FB9C9
fuselage, wings

Stripe
#E8E4D8
tail boom

Accent
#F0C86A
nose sensor

Gunmetal
#3A3F45
rotor, pods

COLORWAY B - RUBICON (save as unit_gunship_red.png)

Hull · 70%
#E0564A
fuselage, wings

Stripe
#3A3F45
tail boom

Accent
#F2B63D
nose sensor

Gunmetal
#3A3F45
rotor, pods

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of an attack helicopter seen from directly above with stub wings and a slim tail boom, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Teal fuselage #3FB9C9, off-white stripe along the tail boom #E8E4D8, amber nose sensor ball #F0C86A, dark gunmetal rotor and rocket pods #3A3F45. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: fuselage becomes red #E0564A, tail stripe becomes charcoal #3A3F45, sensor ball becomes hazard yellow #F2B63D. Keep the pose, proportions, outline, and every detail identical - change colors only.

CHARACTER SHEET

Unit

Crystal Command style guide · p.14

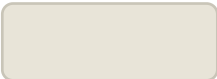

HARRIER

Air · strike jet - one devastating bomb per sortie

SUBJECT
A sleek delta-wing jet from above: triangular wings, pointed nose at the top, two visible engine intakes near the wing roots.

SIGNATURE DETAIL (must survive at 30 px):
two glowing engine intakes near the wing roots

COLORWAY A - EXPEDITION (save as unit_harrier_teal.png)

			
Hull · 75% #3FB9C9 delta body	Wingtips #E8E4D8 both tips	Accent #F0C86A intakes	Canopy #3A3F45 cockpit

COLORWAY B - RUBICON (save as unit_harrier_red.png)

			
Hull · 75% #E0564A delta body	Wingtips #3A3F45 both tips	Accent #F2B63D intakes	Canopy #3A3F45 cockpit

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a delta-wing VTOL strike jet seen from directly above, nose up, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Teal delta wings and body #3FB9C9, off-white wingtips #E8E4D8, two glowing amber engine intakes #F0C86A near the wing roots, dark canopy #3A3F45. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: body becomes red #E0564A, wingtips become charcoal #3A3F45, intakes become hazard yellow #F2B63D. Keep the pose, proportions, outline, and every detail identical - change colors only.

CHARACTER SHEET

Building

Crystal Command style guide · p.15

HEADQUARTERS

Building · the heart of the base - lose it, lose the game

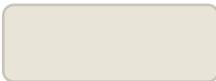

SUBJECT

A big octagonal command center seen from above: layered roof plates around a glowing central reactor. The most important-looking building in the game. NO flag - the game draws faction banners itself.

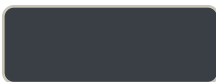

SIGNATURE DETAIL (must survive at 30 px):

the glowing crystal-teal reactor core at dead center (both teams - everyone mines the same crystals)

COLORWAY A - EXPEDITION (save as bld_hq_tea.png)

			
Structure · 75% #2F97A6 roof plates	Trim #E8E4D8 walkways	Reactor #6FE3D0 center glow	Accent #F0C86A corner lights

COLORWAY B - RUBICON (save as bld_hq_red.png)

			
Structure · 75% #B8443A roof plates	Trim #3A3F45 walkways	Reactor #6FE3D0 center glow	Accent #F2B63D corner lights

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a large octagonal sci-fi command headquarters building with a central reactor dome, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Deep teal roof plates #2F97A6 in octagonal layers, off-white walkway trim #E8E4D8, a glowing crystal-teal reactor core #6FE3D0 at the center, small amber warning lights #F0C86A at the corners. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: roof plates become dark corporate red #B8443A, walkway trim becomes charcoal #3A3F45; the teal reactor core stays. Keep the pose, proportions, outline, and every detail identical - change colors only.

CHARACTER SHEET

Building

Crystal Command style guide · p.16

BARRACKS

Building · trains all infantry

SUBJECT

A squat square barracks from above: flat roof with vents, a clearly visible striped awning over the door on the bottom edge.

SIGNATURE DETAIL (must survive at 30 px):

the striped awning over the door

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a square military barracks building with a striped awning over its main door, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Deep teal roof #2F97A6, an awning striped off-white and amber (#E8E4D8 / #F0C86A) over the bottom door, charcoal roof vents #3A3F45. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: roof becomes dark red #B8443A, the awning stripes become charcoal and hazard yellow (#3A3F45 / #F2B63D). Keep the pose, proportions, outline, and every detail identical - change colors only.

Structure · 65% #B8443A armored rim	Doors #9AA0A6 closed, center	Hazard #F2B63D painted ring	Lights #F2B63D warning dots

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a round missile silo with closed steel blast doors and a hazard ring painted around them, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Deep teal armored rim #2F97A6, closed steel blast doors #9AA0A6 at center, a hazard-yellow and black ring #F2B63D painted around the doors, small amber warning lights #F0C86A. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: rim becomes dark red #B8443A; the steel doors and hazard ring stay. Keep the pose, proportions, outline, and every detail identical - change colors only.

CHARACTER SHEET

Dino

Crystal Command style guide · p.25

SPITTER (WILD + TAMED)

Dino · venom-spitting pack wildlife - and hatchable ally

SUBJECT

A small two-legged raptor-like dinosaur from directly above, head at the top, long tail behind: pale bone hide, moss back stripes, and a clearly bulging venom sac at the throat. Wildlife, not a monster - keep it a little cute.

SIGNATURE DETAIL (must survive at 30 px):
the bright venom-green throat sac + amber eyes

COLORWAY A - EXPEDITION (save as unit_spitter_wild.png)

Hide · 70% #C2BB96 body, head	Stripes #5F5C3E back, tail	Venom #A8D060 throat sac	Eyes #E0A43C both eyes

COLORWAY B - RUBICON (save as unit_spitter_teal.png)

Hide · 70% #3FB9C9 tamed: teal	Stripes #5F5C3E back, tail	Venom #A8D060 throat sac	Eyes #E0A43C both eyes

PROMPT 1 - generate colorway A (attach the approved marine sprite as style reference)

Top-down orthographic 2D video game sprite of a small raptor-like dinosaur with a bulging venom throat sac, viewed from directly above, facing up. Chunky cartoonish proportions, flat shading, bold clean dark outlines, exactly matching the art style of the attached marine sprite. Pale bone hide #C2BB96, moss-green back stripes and tail bands #5F5C3E, a bulging bright venom-green throat sac #A8D060, small amber eyes #E0A43C. Kid-friendly. Centered, filling 85% of a square canvas, plain solid light-gray background, no text, no drop shadow.

PROMPT 2 - recolor to colorway B (upload the colorway-A result with this; do NOT regenerate)

Recolor this exact sprite: the bone hide becomes teal #3FB9C9; the moss stripes, venom sac, and amber eyes stay exactly the same. Keep the pose, proportions, outline, and every detail identical - change colors only.

NOTE: Colorway A is the WILD dino (file: unit_spitter_wild.png). Colorway B is the player-tamed version (file: unit_spitter_teal.png) - a recolor of the same sprite.

CHARACTER SHEET

Overlay

Crystal Command style guide · p.26

TURRET GUN (OVERLAY)

Overlay · the rotating gun the game draws on turret/flak bases

SUBJECT

Just the gun: a compact rotating turret gun assembly seen from above, barrels pointing up, mounted on nothing (transparent all around). The game composites it onto the turret and flak bases and rotates it.

SIGNATURE DETAIL (must survive at 30 px):

clean silhouette on full transparency - no base pixels at all

COLORWAY A - EXPEDITION (save as turret_gun_teal.png)

Housing
#3FB9C9
gun body

Barrels
#3A3F45
